

REMARKS

Applicants have amended claims 1, 8, 9, 47, and 66 to correct minor deficiencies. In particular, Applicants have amended claims 1 and 47 to recite that the phenyl substituent in R₅ may optionally include CF₃ and CH₃ in addition to the other phenyl substituents. The multiple dependency of claims 8 and 9 is now stated in the alternative and claim 66 now references the compounds of formula II. No new matter has been added. Rather, the above amendments merely bring pending claims 1-14, 16, 17, 22-25, 30-36, and 38-66 into condition for allowance, which action is respectfully requested.

Respectfully submitted,
